REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present application relates to a system for dynamically targeting content according to location and direction based information. According to the claimed invention, there is provided an integrated position and direction system on board of a vehicle for determining position and direction of the vehicle, wherein the integrated position and direction system comprises a digital compass for determining the direction of travel by using information from a Global Positioning System (GPS), a satellite positioning system for determining the position of the vehicle, a memory comprising a direction program having instructions for controlling operations of the integrated position and direction system, a memory comprising a content targets having instruction for controlling selection of an item based on the position and direction of travel, and a controller coupled to the digital compass and the satellite positioning system, wherein the controller selects content from multiple items using the instructions for controlling the selection of an item of content, the contented being selected according to both the position and direction of travel. The aforementioned limitations and arrangement and combination thereof are not taught by the prior art. In light of the foregoing, the claims of the present application are found to be patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3661

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacques H Louis-Jacques whose telephone number is 703-305-9757. The examiner can normally be reached on M-Th 6:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black can be reached on 703-305-8233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
